

HL 10™ Acoustic Water Leak Locator

Metrotech's acoustic water leak locator, the HL10 is a small, easy-to-operate for locating leaks in water pipes. Its outstanding acoustic properties enable it to reliably locate even tiny leaks. The three filter settings allow the equipment to be perfectly adjusted to the individual task and suppress interfering background noise. The visual LED indicator assists the leak location procedure and the simple, one-handed operation enables multiple assignments effortlessly. By pressing the mute switch will store the current measured. Users can select best settings for the particular leak situation by using the volume and sensitivity control. LED light is integrated for improving visibility in low light areas. Greater versatility is gained by combining the HL 10 with the sensitive GM 80 wind protected ground microphone.

Benefits:

FEATURES

Amplifier

- Volume and amplification control
- 3 Filter settings: 0 - 4000 Hz, 0 - 540 Hz, 540 - 4000 Hz
- Last value memory
- Built-in LED flashlight
- 2 x 1.5 V AA Batteries
- Protection class: IP 54
- Operation time: 50 h
- Resolution: 1 - 10
- Retaining strap
- On/ Off button
- Ambidextrous
- Light weight
- LED display
- 1/8 "headphone jack

Microphone PAM B-2

- 1 Extension rod, tip and magnet
- High sensitive piezo sensor
- Size: 1 7/8 " (diam.) x 4 1/8 " (tall)
- Protection class: IP 67
- Carbine hook
- M 8 thread
- 10 ft cable
- Tripod

Headphones

- Noise cancellation headphones
- Additional volume control
- Light weight
- 1/8 " plug

Carrying case

- Robust hard carrying case
- Size: 20 " x 15 " x 5 "
- Light weight

Accessories / Options

- David Clark aviation headphones
- GM 80 including cable, handle, tripod
- Additional extension rod
